## EDUCATION

### Post-Graduate Diploma In Advanced Computing

CDAC ACTS | India, **CGPA: 7.2**

**09 - 2023**

Pune, MH

### Bachelor of Engineering

Priyadarshini College of Engineering, **CGPA: 8.82**

**07 - 2022**

Nagpur, MH

## SKILLS

- **Languages:** Java, JavaScript, SQL, HTML/CSS
- **Frameworks / Libraries:** React.js, Spring, Spring Boot, Hibernate
- **Database:** MySQL, MSSQL
- **Related Technologies:** Node.js, REST API, Microservices, AWS-EC2, Docker, Kubernetes, Postman, GitHub, Jira

## Experience

### Rockwell Automation | Pune

#### Software Developer Intern

**09/2024 - Present**

- Contributed to the development and enhancement of enterprise products **MES**.
- Gained hands-on experience in **Java, Spring Boot, SQL Server, and React.js**, working on system configurations and enterprise application integration.
- Developed and optimized **RESTful APIs** using **Spring Boot** to support front-end operations, ensuring efficient data exchange and seamless integration.
- Built and enhanced UI components using **React.js, HTML, CSS, and JavaScript**, improving user experience and responsiveness.
- Worked on state management and API integration in **React.js**, ensuring smooth data flow between frontend and backend services.

## PROJECTS

### E-Commerce MERN Stack Application

- Developed an e-commerce application using **React.js, Node.js, Express.js** and **MongoDB**, ensuring a dynamic and responsive user experience.
- Implemented **user authentication and authorization** with **bcrypt** for password **hashing** and **JWT** for token-based security.
- Designed and developed a **REST API** with **Express.js**, handling user management, product listing, and order processing.
- Utilized **Mongoose** for database modeling and efficient interaction with **MongoDB**.
- Integrated **CORS** for secure cross-origin request and **dotenv** for environment variables management.

### Hotel Rating Microservices

- Designed and developed a **Hotel Rating Microservices** system using **Spring Boot** and **MySQL**, allowing users to rate hotels and provide feedback.
- Implement **OAuth 2.0** for authentication and authorization, securing API endpoints to restrict direct access, only authorized microservice can communicate. Used **Feign Client** for inter-service communication.
- Utilized **Netflix Eureka** for service discovery, **API gateway** for centralized routing, and **Spring Cloud Config Server** (Github-hosted) for configuration management.
- Secured the system with a **Rate Limiter** to prevent **DoS attack** and optimize performance.
- Tested APIs using **Postman** and **JMeter**.

## TECHNICAL CERTIFICATES

### Core Java (Sunbeam) | [CERTIFICATE](#)

- Mastered core Java concepts, efficiently applying Object-Oriented Programming principles.
- Acquired expertise in Exception Handling, Collection Framework and Multithreading concept.

### Java (HackerRank) | [CERTIFICATE](#)

- Achieved HackerRank Java Certification, validating proficiency in Java programming through rigorous problem-solving assessments.

### SQL (HackerRank) | [CERTIFICATE](#)

- Attained HackerRank SQL Certification, demonstrating proficiency in SQL query optimization.
